# Oak Ridges Secondary Enrolment

# Summary of Issues

- Richmond Green SS will not be able to accommodate its projected enrolment
  - The Oak Ridges community has enough students to support its own secondary school
- 

# **Accommodation Options for Consideration**

# Option A - Boundary Changes

## Richmond Green SS

- Boundary change to the North
  - Students living east of Yonge Street in Oak Ridges could attend Dr. G.W. Williams SS
- Boundary change to the West
  - Students living east of Yonge Street in Oak Ridges would attend King City SS
- No nearby schools to the south or east currently have available accommodation

# Option B – New Secondary School

- Dr. Bette Stephenson Centre for Learning was originally built in 2011
- Plan was to eventually use the building as a Grade 9-12 secondary school once there was a threshold of students
- The facility was designed in 2 phases:
  - Phase 1 was the construction of the current building
  - Phase 2 would require funding and construction of an addition; incorporating technical education facilities, music, physical education, science labs and sport field

# Option B – New Secondary School

- Explore building an addition onto Dr. Bette Stephenson Centre for Learning to open as a secondary school
  - Potentially include project on the 2017 Capital Strategy Project List scheduled for June 13, 2017 Property Management Committee
  - The Board could apply for funding in Summer 2017 from the Ministry of Education for an addition to the building
- 

# Option B – New Secondary School

- If approved:
    - the potential opening of a new secondary school would not occur for a number of years
    - the future location of Continuing Education and Board staff would be determined under a future process
    - create the secondary school boundary through a boundary review process
- 

# Feedback

- Seeking your feedback on options
- Staff available to answer your questions and receive input (same content at each station)
- Fill out feedback form and return tonight OR a feedback form will also be available on:
